3D DESIGNING

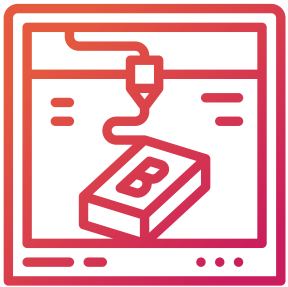

ABOUT US

Welcome to Creative 3D!

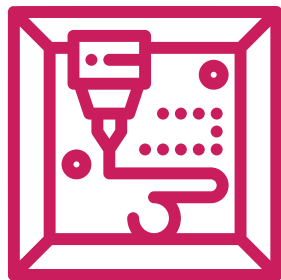

We are a cutting-edge 3D printing company, passionate about transforming your ideas into reality. From rapid prototyping to custom manufacturing, we deliver precision and excellence, empowering innovation every step of the way. Join us in shaping the future, one layer at a time!

OUR SERVICES

**3D Printing
Service**

**Sell
3D Printers**

**3D Printing Trainings
&
Workshop**

At Creative 3D, excellence is our guiding principle. With state-of-the-art technology and a skilled team, we deliver 3D printed creations of unmatched precision and quality. Our commitment to innovation and attention to detail ensures that your projects are brought to life with utmost excellence, leaving a lasting impression. Experience the difference with our top-notch 3D printing services today.

WHY OUR MODELS?

FASTER PRODUCTION

Faster production with complex and detailed designs, compared to hand-made models or CNC cutting.

Create customized, one-of-a-kind models that cannot be produced using traditional methods.

CUSTOMIZATION

COST EFFECTIVENESS

Cost-effective solution for producing multiple models or prototypes, especially for small-scale projects.

Sustainable production with reduced waste, unlike traditional methods that often result in scraps and leftovers.

SUSTAINABILITY

LIGHTING

A more realistic and dynamic representation of the design, enhancing the overall visual impact with Lighting

Flexibility with a wide range of materials such as translucent or flexible materials.

FLEXIBILITY

DISSECTIBLE MODELS

Dissection capabilities for interior design understanding which enable customers to open the models and look at the floor plan

High accuracy, with a precision level of up to **0.01 mm**, ensuring that the model closely represents the final design.

PRECISION

NO SIZE LIMITATIONS

Models can be made as small as a keychain for gifting to the clients or as big as 10 feet for the purpose of display.

CREATIVE POTS

SELF WATERING POTS

Efficient Care of Plants
Built in Water Reservoir
Consistent supply of moisture
Consistent supply of nutrients.
No frequent watering
No under watering
No over Watering

INDUSTRIAL PROJECTS

Lorem ipsum dolor sit amet, consectetur
adipiscing elit, sed do eiusmod tempor
incididunt ut labore et dolore magna aliqua.

PROJECT 1

PAKISTAN MACHINE TOOL FACTORY

Pakistan Machine Tool Factory, works for military forces and makes heavy artillery for them. They are required to carry their weapons to other countries to display and sell, in countries such as Africa, Ukraine and many more. They wanted us to 3D Print and replicate their artillery so that they could carry it and display it at different expos. Currently these models are placed at Pakistan Industrial Tech Park.

PROJECT 2

PAKISTAN MACHINE TOOL FACTORY

Pakistan Machine Tool Factory, wanted us to make 3D models for their CNC machines and Milling machines. So we made their machines in 3D models.

PROJECT 3

PAKISTAN ATOMIC ENERGY COMMISSION

Pakistan Atomic Energy Commission
PAEC

The development of a medical linear accelerator by the Pakistan Atomic Energy Commission (PAEC) to combat cancer represents a significant advance in radiation therapy. We provided 3D design expertise and developed a model of the machine.

PROJECT 4

INSPIRE HOLIDAYS TRAVELS AND TOURS

Inspire holidays Travel & Tours wanted a scaled model of Emirates Airbus A-380, so we designed it from scratch as its dimensions were not available online due to copyright issues. The entire 3D model was 4ft big.

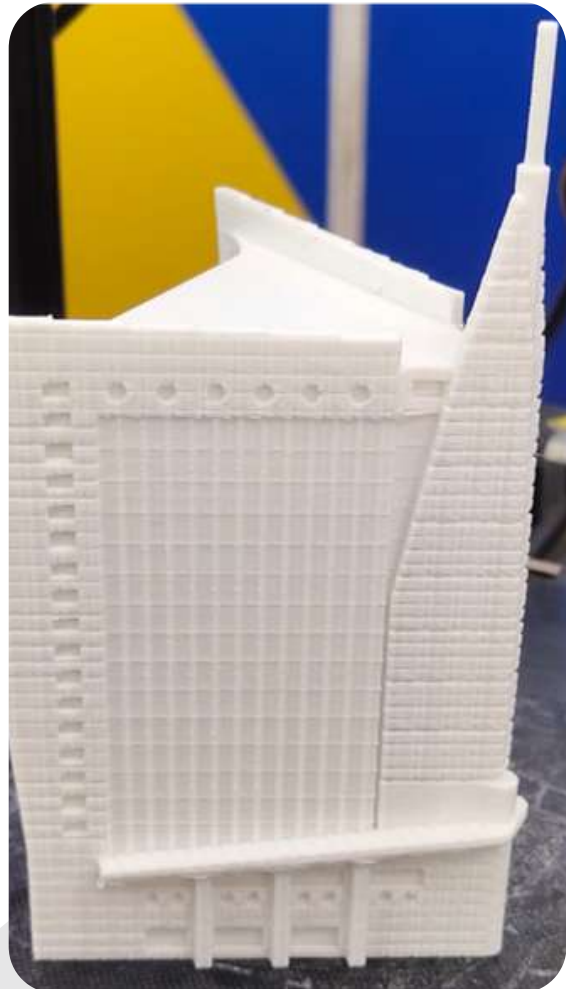

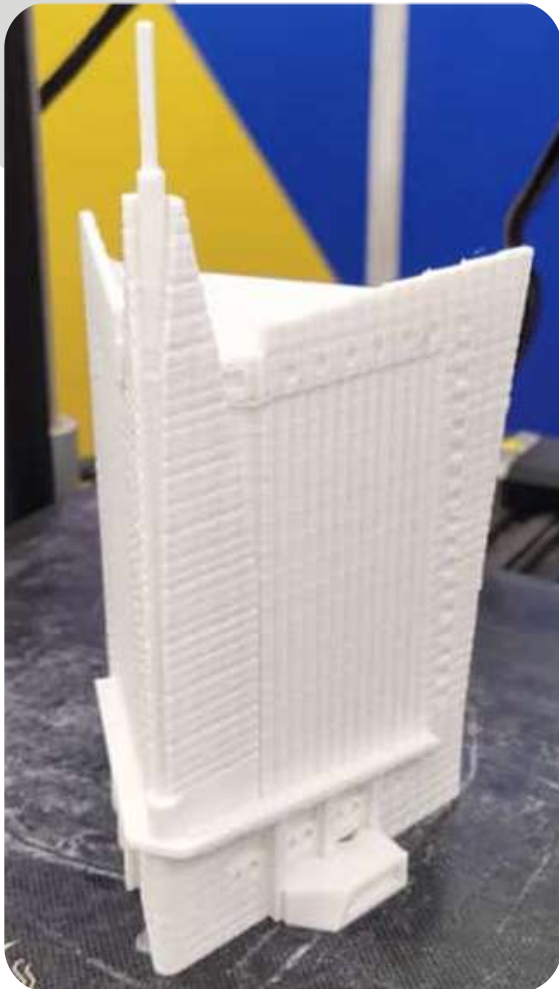

PROJECT 5

DOLMEN REAL ESTATE MANAGEMENT

Our team successfully created a 3D printed model of the harbor front of Dolmen Mall. The harbor front is a critical aspect of the mall's design, and our team worked diligently to ensure that the model captured every detail

PROJECT 6

CHANGAN MASTER MOTORS

We created Jigs for Changan Master Motors which was an end product with magnets to place the logo of Changan Motors on their new vehicle X7. This was all made with manual sizing and had magnets with reference points to make it accurate on every car.
